

Church Entity Engagement with Catholic Professional Standards

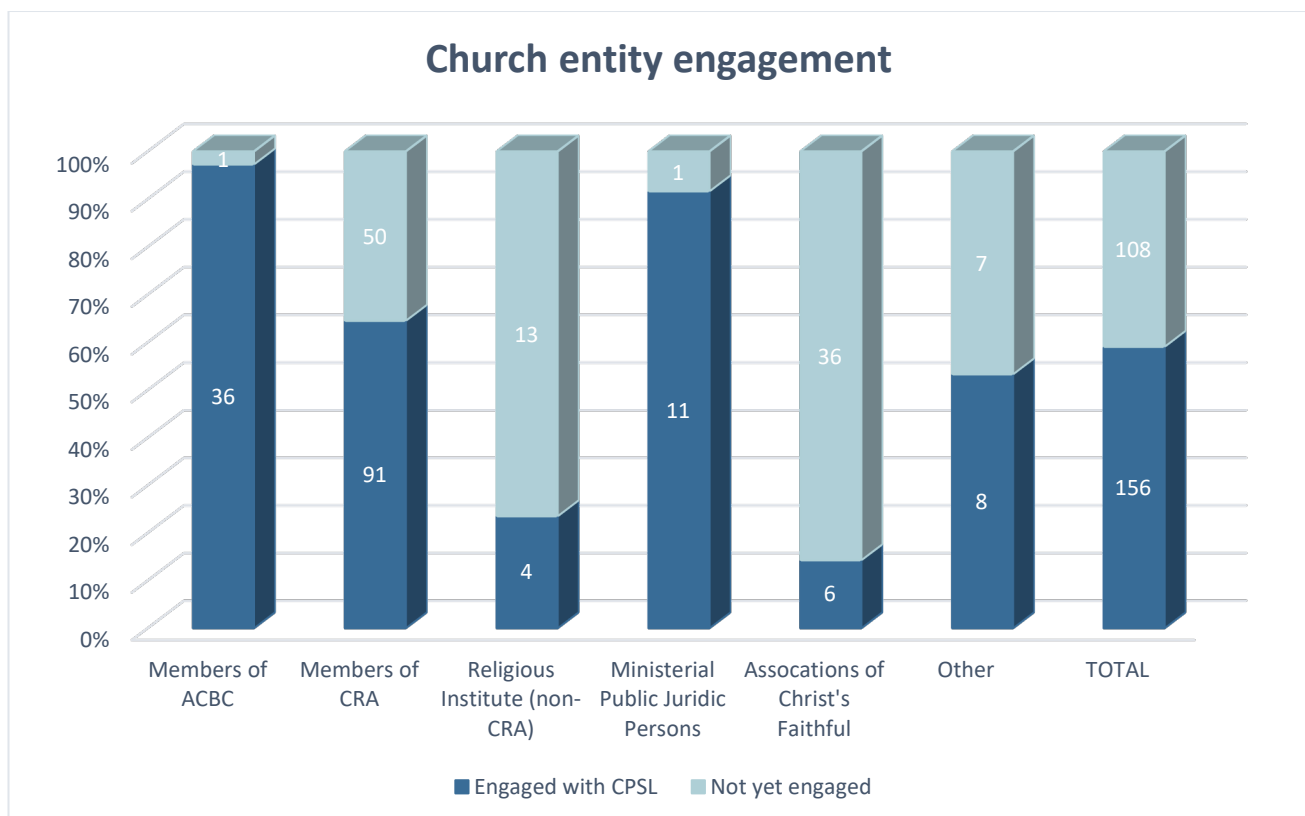

The Australian Catholic Bishops Conference (ACBC) and Catholic Religious Australia (CRA) approved the National Catholic Safeguarding Standards (the Standards) in May 2019. This approval indicates a clear expectation that Catholic entities across Australia are now required to implement the Standards.

Whilst entering into a Service Agreement for an audit against the Standards is not mandatory, it is strongly encouraged by ACBC and CRA.

This report provides information about the engagement of individual Catholic entities with CPSL.

This report will be updated at the end of each month or as otherwise specified.

156 out of 264 Catholic Church entities have formally engaged with CPSL to 4 November 2020 – this represents 60% of identified Catholic entities across Australia.

Church Entity Engagement

NCSS training: ✓ indicates at least one representative from the Church entity has attended a CPSL facilitated training about the National Catholic Safeguarding Standards.

Service Agreement: ✓ indicates a Service Agreement between the entity and CPSL has been executed; ‘in development’ means the entity has initiated contact with CPSL with the express intention of signing a Service Agreement once scoping has been completed.

Audit status: Where a year is listed this is the year an audit is scheduled to occur; links to published audit reports are provided.

Tip: By using ‘Ctrl f’, you can search this document for a particular Church entity.
